## Student Satisfaction Survey 2023-24

### 2.7.1 Student Satisfaction Survey (SSS) on overall institutional performance

The primary purpose of higher education is creation of knowledge and propagation for the development of world through innovation and creation of prepared minds of students. Hence higher education institutions are increasingly recognizing and are placing greater emphasis on meeting the expectations and needs of their students. So, successful completion and enhancement of students' education are the major reasons for the existence of higher educational institutions. This positive development in higher education shows the importance of educational institutions understanding student satisfaction in a competitive environment. Both academic and students perceive physical facilities are more important than general. i.e. students must satisfied with factors related to comfortable learning environment, public spaces, campus accessibility and staff satisfied with laboratory and teaching facilities.

Our Institution has administered student satisfaction surveys in order to elicit student opinion and perspective regarding university's environment, programs, and services. We have prepared Students survey forms with certain questionnaire by considering the following factors:

- Infrastructure facilities such as classrooms, Sports/games, Sanitation, drinking water canteen etc. available in the university
- Learning resources available viz. Text books, Magazines, Newspapers, Reference books, E-resources etc.
- The functioning of the Placement Cell.
- College effort to improve the quality of teaching.
- Helpfulness by the college administrative staff.
- Examination and evaluation system.
- Encouragement provided to the students for participation in Curricular & Co-Curricular competitions.
- Discipline practices followed in the College campus.

### Outcome:

The students are the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. We have collected feedback (Table-1) from our students for different departments/schools. A four point scale feedback form on the curriculum is developed.
